Your Solution is our Business!

Wilson's Solutions Center delivers custom solutions that are better, quicker, and adaptable to every application. With direct access to an integrated inventory of over \$100 million in genuine OEM parts, Wilson's engineers create complete solutions for the world's most demanding systems and equipment.

At Wilson, we always maintain the highest possible level of engineering, with every filter, pump, and valve stocked and configured in Houston, Texas. We offer direct delivery of high-quality, custom-engineered solutions for use in fast-growing industries such as oil and gas, healthcare, and technology.

Design your Solution

The Core Four

Parker Vane Pump

Parker's hydraulic vane pump provides ideal performance in most demanding industrial and mobile applications. Its compact design achieves industry-leading efficiency and is easy to install, enabling equipment to quickly realize the benefits of reliable fluid power.

Series	# Cartridges	GPM @ 1800
T6C	Single	15-33 gpm
T6CC	Double	18-33 gpm each cartridge
T6D	Single	36-75 gpm
T6DC	Double	36-57 gpm each cartridge

Parker Hydraulic Filtration

Parker's hydraulic filters are durable, strong, and engineered for demanding applications. Built in America with high-grade materials, our filters will continue to maintain your hydraulic fluid and extend the life of your equipment for years to come.

Pressure Filter	Series	Pressure
WPF	Sizes 1-5	Up to 7000 psi
P series	15P/30P	Up to 3000 psi
Medium Pressure	Series	Pressure
CN Series	15/40/80	1000 psi
CS Series	12/50	500 psi
Return Filter	Series	Pressure
Spin On	12AT/50AT	150 psi
Moduflow	Inline/Return	200 psi
Tank Top	GLF 1-3	150 psi

Parker Mobile Valve

Use Parker mobile valves to power your heavy-duty equipment and reduce your dependence on the field-assembled solutions. These valves are well designed and easy to maintain – reliably directing fluid for simple to severe applications. Integrated valving achieves better reliability, higher efficiencies, and lower operating costs.

Mobile Valve	Flow	Pressure
V10	15 gpm	3500 psi
V20	25 gpm	3500 psi
DVA20	40 gpm	2500 psi
DVG20	40 gpm	3500 psi
DVA35	70 gpm	2500 psi
DVG35	70 gpm	3500 psi

Versa-Valves

Versa-Valves pneumatic valves provide maximum reliability and versatility and are able to handle the most demanding applications anywhere in the world. Highly customizable and extremely versatile, these valves are found in most critical applications.

Series	Material	Description
V	Brass	¼ & ½ ports Explosion Proof VAC120 & VDC24 Manual Reset Remote Manually Operated NEMA 4

Wilson was founded in 1965 and still maintains a culture of love, serve, and care. Learn how we do it at wilson-company.com
