

Freedom at Your Fingertips

Water Purification Product Catalog

ENGINEERING YOUR SUCCESS.

Parker Water Purification is Certified by the Following Associations:

ABS Type Approved ISO 9001:2015 by ABS.

Safety, service, and solutions are the goals that define the American Bureau of Shipping. Parker Water Purification is the first and only watermaker manufacturer to gain full product line type acceptance.

National Marine Manufacturers Association and Southern California Marine Association.

Parker Water Purification is an active member in the above associations in good standing.
CE Approval

The Conformité Européne (CE) mark indicates that our products comply with the legal standards of the EU directives.

This is Parker addressing the needs of humanity by providing clean water.

For decades, Village Marine (VMT) has developed advanced water desalination and purification systems for some of the most challenging environments – the middle of the ocean, 800 feet below the sea, offshore oilrigs, deserts, and disaster areas. For over 30 years Sea Recovery (SRC) & Horizon Reverse Osmosis (HRO) have manufactured ingenious and intuitive watermakers. In 2012, Parker combined the 3 companies and Parker Water Purification (WP) was established.

The superior quality components that go into Parker WP systems ensure that each one is built to the highest standards of safety, maintainability, and reliability. High grades of raw materials are precisely machined & thoroughly tested to exact customer requirements and industry specifications.

Parker WP provides state-of-the-art and reliable reverse osmosis (RO) purification systems for seawater, brackish water, and tap water; from energy-saving 145 GPD watermakers to high-performance 250,000 GPD systems has established Parker WP as a leader in the watermaking brand among marine consumers and boatbuilders around the world. The U.S. Navy, the U.S. Coast Guard, the U.S. Army, NASA, FEMA, seaside properties such as Catalina Island, and disaster relief project such as Hurricane Katrina and Hurricane Dorian, have relied on Parker WP for high-profile projects.

This is Parker addressing the needs of humanity by providing clean water.

Parker Water Purification The Trusted Source for Fresh Water

Parker Water Purification has manufactured the most innovative and intuitive watermakers for the past 30 years. By incorporating a customer-first philosophy into our designs, the quality of our products is never compromised. We believe that boaters deserve more from their watermakers. Dealing with confusing controls and maintenance should not be a concern. Our company strives to communicate to the heart of the leisure boater, by engineering systems that marries style with functionality, a formula that has made Parker Water Purification the #1 watermaking brand among marine consumers and boat builders around the world.

Service and Support

Worldwide Dealer Network

With hundreds of certified dealers throughout the world, Parker Water Purification customers can cruise confidently to any destination and expect a friendly Parker Water Purification expert ready to service or upgrade their system.

Parker Water Purification Warranty Coverage*

We stand behind our innovative products by providing our customers a full year warranty that includes full coverage for parts and labor at no extra cost to you.

Quality is our Priority

Safety and quality standards are priority and our goal is to surpass them. Our products utilize quality parts and are built to withstand any condition.

*Refer to your owner's manual for warranty details.

Enjoy the Benefits of a Parker Water Purification Watermaker...

Less weight, lower fuel costs, higher speeds

Cruising with a full water tank, or an extra 1,700 pounds will result in wasted fuel, slower speeds, and shorter trips. A Parker Water Purification watermaker allows you to cruise faster and farther and create fresh water... on location. Our systems save boaters time and money, while maximizing yacht performance.

Cruise without limits or boundaries

With a Parker Water Purification watermaker, you don't need to plan your boating activities around marina stops. Cruise direct to your destination or cruise to limitless distances without the need to stock up on fresh water.

Fresh water wash downs

Wash downs with Parker Water Purification water are highly effective in preserving your yacht's exterior, which can contribute to an increase to the value of your yacht. Parker Water Purification water acts as a sponge, absorbing and washing out all unwanted sea salt and minerals, and dries clean - without any water spots.

Convenient for every boating activity

Whether you use it to drink, shower or to wash down your yacht, owning a Parker Water Purification watermaker provides unlimited possibilities that saves money and increases leisure time. How can any boater afford not to own a Parker Water Purification watermaker?

Did You Know?

You can increase the value of your boat up to 10% by washing down your boat with Parker Water Purification product water.

Parker Water Purification water has superior taste than your regular tap. Even coffee made with Parker Water Purification water tastes better.

You can create clear ice cubes with Parker Water Purification water. Store any food, including fish of the day with Parker Water Purification water ice for better preservation.

State of the Art Color Touch Screen

User-friendly touchscreen

Our full color LCD touch screens are designed to be simple and easy to use. Featuring an intuitive Human Machine Interface navigation menu, system start-up and controls are able to be activated with a single touch.

Customized display settings

Equipped with a multiple language interface, you can choose to display your screen in English, French, Italian, and Spanish. You also have the choice to set measurement units to either metric or US standard readings.

Quality Tested for Smooth Functionality

Engineered for less noise pollution

Parker Water Purification watermakers feature state of the art frames that optimize space, minimize sound, and reduce maintenance time. Sound has been noticeably reduced by 3db for the Aqua Matic and Aqua Whisper DX systems.

Vibration tested

Our systems are manufactured and tested to withstand up to 20 G's of continuous force for over an hour of operation, ensuring reliable performance in all conditions.

More Water, Less Clutter

Parker Water Purification watermakers create more water per square inch than any other system in the world.

By utilizing high efficiency membranes, there is 17% more filtering surface area than conventional membranes. This reduces the amount of membranes and installation space required by competing brands.

Ex. 1: Parker Water Purification's 700 gallon capacity membranes are smaller in length, about the same in diameter, yet have a larger filtering surface than the generic 600 gallon membrane.

Ex 2: Parker Water Purification's 1400 gallon membrane configuration uses less membranes than the generic 1200 gallon membrane configuration, giving you more filtering surface while reducing replacement and maintenance costs.

Modus/NMEA 2000 - No More Engine Room Visits

Parker Water Purification's new line of watermakers are Modbus and NMEA 2000 compliant, giving boaters the power to monitor and communicate with their systems through any Modbus and NMEA 2000 compatible display.*

NMEA 2000 Network

Eliminate wires, clutter, and engine room visits by connecting directly to your NMEA 2000 central connection. This network standard allows boaters to monitor all NMEA-compliant electronics through their system displays installed throughout your yacht or laptop.

Flybridge and GPS Display

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

LWM Series Modular Watermaker

145-180 GPD – 530-681 LPD

Features & Benefits

- Available for 12V, 24V power supplies as shown.
- 5 micron cleanable prefilter.
- Powder coated mounting brackets included.
- Control manifold pressure regulator ensures consistent pressure and prevents over or under pressurization of the unit. Adjustable to allow operation in brackish or fresh water.
- Acrylic flowmeter to monitor production.
- High quality spiral wound TFC reverse osmosis membranes.
- Magnetic drive boost pump.
- Stainless steel glycerin filled pressure gauges.
- High pressure pump impervious to the corrosive sea water environment and designed for maximum efficiency.

Specifications

Model	Part Number	Electrical Supply Voltage-DC / Amps	Capacity GPH / LPH	Weight lbs. / kg

For Sail Boat and Fishing Vessel Applications

The LTM Series offers high quality Parker Village Marine engineered components with straightforward manual operation. Driven by AC motors, the modular configuration comes in ready to mount modules for

flexible installation options. Integral to every LTM unit is a control manifold, which includes a regulator and a bypass valve.

Key Feature

Optional salinity monitor and diversion valve system for water quality assurance.

Salinity monitor and diversion valve

- P/N 90-0115 110V 500-800 GPD
- P/N 90-0116 220V 500-800 GPD

H2O ECO

The Revolutionary Energy Recovery Watermarker

17 - 25 Gal/Hour – 63 - 95 Lit/Hour

Features & Benefits

- Energy Recovery Device - Recovers up to 14.5% of power on all models
- AC and DC Models Available
- Fully Automatic Operation
- Compact Configuration
- Manual Fresh Water Flush
- External Booster Pump

Specifications

Part Number	Voltage (DC/AC)	Capacity (GPD)	LPH	DC Power (Watts)	AC (NOA)	Weight

The Low Power Consumption Choice

The new Patent Pending Energy Recovery Device H2O ECO is engineered for boaters with limited power options. Featuring automatic operation, it is ideal for Catamarans and sail boats.

Key Features:

- Compact robust design
- Smooth operation
- Small footprint

Optional Accessories

- B561080001 pH Neutralizer
- B611000004 Remote Control
- B521220002 Charcoal Filter
- B5262000CV UV Sterilizer
- 61012116 External Strainer
- B598000008 Automatic Fresh Water Flush
- 61012124 Installation Kit

Great Things Come in Small Packages

Production Capacity:

170, 350, 550, and 750 Gallons/Day

The low-hassle Pro Mini is engineered to fit anywhere. Measuring about 2 - 3 cubic feet, sail and small power boaters have the opportunity and the convenience of a Sea Recovery watermaker without space restrictions. Featuring a simple interface, the Pro Mini can be monitored via the control panel or remote (optional). The Pro Mini can produce up to 7, 15, 23, or 31 gallons of fresh water per hour and is the perfect seaworthy companion for the solo cruiser.

For the Hands-On Boater

The Aqua Whisper Pro watermaker is suited for charter, offshore fishing, and ocean cruising. Its traditional manual functions and touch-pad control panel allows simple operation and digital + analog instrumentation for redundancy. The Aqua Whisper Pro's high pressure pump is engineered to be quieter than conventional high pressure pumps, and operates for 2,500 hours before any maintenance is required.

Dimensions

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Seafari Versatile

450 - 1800 Gal/Day

1705 - 6815 Lit/Day

Features & Benefits

- Remote Mount Cube - for easy access to system controls.
- Equipped with a failsafe Product Water Diversion Valve allowing only safe drinking water to enter storage tanks.
- High rejection, high yield, commercial grade, and chemical resistant Membranes.

Aqua Matic

Mid to Mega Yachts
(40 - over 80 ft / 12 - over 24 m)

Features & Benefits

- An automated screen informs the operator of required maintenance.
- Available in a small footprint, compact frame for easy installation.
- Full color, touchscreen remote control.
- Ability to display in multiple languages.

Tomorrow's Technology, Here Today

The Aqua Matic watermaker features automatic operation with a touch-screen control panel that allows simple touch-and-go operations. Product water quality is now displayed in a bar graph format. Regulation and monitor systems function without the need of an operator. Sea Recovery's high-pressure design includes double O-ring seals on duplex stainless steel fittings to ensure leak-proof operation.

Dimensions

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Aqua Matic XL

Large to Mega Yachts
(over 80 ft / 24 m)

Features & Benefits

- Installation connection & piping (marine vessel installations).
- All system readings can be selected to display either U.S. standard or metric measurements.
- Tank level switches may be installed to control shut down and also prevent start up if the tanks are full.
- All aspects of operation are displayed on straight forward screens providing simple, intuitive information and directions.
- For those who demand simplicity, excellence, automation, elite technology, and low maintenance, the Aqua Matic XL is the only choice.

The Simple Things in Life Make the Difference

Robust Engineering and Innovative Design by Sea Recovery's Engineering Team.

Smooth operation and the lowest sound emission in the industry are gained through the design of specific high-pressure pumps ideally matched for flow and pressure characteristics.

Constructed of a lightweight, epoxy-coated frame, both the compact and modular series units utilize only the highest quality marine grade materials and components. Upgrading a model to a higher watermaking capacity is done by simply installing additional reverse osmosis membranes to the desalination system. Unique among watermakers, Sea Recovery delivers complete R.O. systems, ready to produce water immediately after installation. All plumbing for on board use is also included.

Dimensions

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Aqua Matic Dual Pass

Mid to Mega Yachts
(over 80 ft / 24 m)

Features & Benefits

- Highest capacity to footprint/weight ratio.
- Up to 3400 GPD from sea water.
- Self-contained, plug and play system.
- Titanium high pressure pump provides an extended life cycle with salt water compatibility and quiet operations.
- Flexible installation and easy to operate.
- Globally supported by a network of more than 300 dealers and distributors.

Aqua² Duo Mega Yacht Series Watermakers

2800 to 6800 GPD
442/1073 LPH

Product Features:

- State of the Art Controller Interface with Digital Display
- 5 Micron and Oily-Water Separator Pre-Filtration Included, Inside the Frame
- Analog Low Pressure Gauges and Brine Water Flow Meter for Better Accuracy
- Storage Tank Level Monitoring
- Enjoy Safe Operation with Low and High Pressure Protection
- Auto Fresh Water Flush
- External Booster Pump
- Post Filtration

Simple, Direct Feed to Your Current Watermaker

The Ultra Clear DF works with your RO system to convert sea water to double purified water. Its reliable piping connection allows direct feed that activates an automatic operation, and produces spot free water when water is directly fed into the system.

Ultra-pure water is 99% free of water solids. Perfect for rinsing hulls, windows, and extending the life of your boating equipment. It gently lifts debris and dries spot free.

Pure Water Series

400-2000 GPD (1.5-7.5 m³/day)

Standard Features:

- Monel mesh strainer and dual sediment prefilters.
- Maintenance-free air/oil separator allows operation while underway.
- Low RPM five plunger titanium pump for minimum vibration and noise with unsurpassed corrosion resistance.

For Commercial Marine Applications

The Pure Water (PW) Series is designed to provide installation flexibility, superior performance, and extended service life in the most rugged conditions.

Designed for 24/7, continuous duty applications, where reliable fresh water supply is critical.

Standard Features (cont.):

- Magnetic drive low pressure pump provides up to 10 psi of boost pressure to the filtration system. No mechanical seal to reduce maintenance requirement.
- Stainless steel, glycerin filled pressure gauges.
- Freshwater flush system is added as either manual flush or optional automatic flush.
- Adjustable 316 SS pressure regulating valve allows use in fresh, brackish or seawater.
- Easy to operate 316 SS high pressure bypass valve controls the operating mode and allows high pressure bypass for start-up and low pressure flushing without

Platoon Reverse Osmosis System H2O-PRO

Key Features:

- Simple Operation
- Extremely energy efficient
- Quick set-up
- Light weight
- 100% tool-less maintenance
- Rugged Military fielded design

Specifications

Model	Part No.	Capacity	Power	Weight	Dimension (LWH)
H2O Pro	0500134	25 GPH	24 VDC & 120 VAC	130 lbs	31.6" x 23" x 19"

⚠ WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

The Village Marine H2O-PRO unit provides fresh water from any water source, including seawater. The H2O-PRO will process 25 gallons per hour from 24 VDC or 120 VAC power.

- Cleanable Light weight prefilter
- Two staged 20 and 5 micron sediment filtration
- Reverse Osmosis system

Inside Panel

Hose/Tube Conn. Ports

Filter Standup

- USMC Selected - Platoon Water Purification System (PWPS)
- NSN 4610-01-688-0542
- Energy efficient - less than 700 Watts on Seawater or 400 Watts on Freshwater
- Quiet operation - less than 65dB
- Operate with case close for harsh environments
- External filter change out for simplified maintenance.
- Ultra simple tool - less membrane change out
- Cleanable Light weight Prefilter for source water up to 250 NTU
- Auxiliary Case contains AC & Battery power supplies, water test kit, spare parts, cables and hoses.

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Coral Sea Watermakers

3,800 - 6,800 GPD

14-26 M³/D

Features & Benefits

- Enhanced safety designed into the process and operation of the system.
- Easy to maintain.
- Vertical configuration standard.
- Optional configurations voltages available upon request.
- Advanced digital controls.
- Short manufacturing lead times.
- Oil-free pump.
- Large HMI interface.
- All automatic controls and instruments for safe & reliable operations.

Part No. 0901008 for 440V-480V RO Systems

Part Number	Description
40012014	20 Micron Cartridge Filter Element
40012013	5 Micron Cartridge Filter Element
40012004	CIP Cleaning Element #1
40012005	CIP Cleaning Element #2
40012019	Preservation Chemical Element #3
0803004873	FWF Element Charcoal
21-1122	Parker Membrane Lubricant, Single Use Packet
2724011433	Seawater RO Membrane Element
91-3557	Handheld Water Quality Meter

Part Number	Description
61012038	Flange Kit - C/S ANSI, PVC
61012039	Flange Kit - C/S DIN, PN16
61012040	Flange Kit - C/S JIS, 10K
90-5160	Operation Manual - Paper Copy
90-5165	Operation Manual - Electronic Copy (no charge)

Technical drawings of the 1000 Series generator set showing front, side, and rear views with dimensions in mm and inches.

Front View Dimensions:

- Overall Width: DIM1 (SEE TABLE)
- Maintenance Area: 26.5 [673]
- Overall Height: 34.5 [877]
- Height to C.O.G.: 20.7 [526]
- Height to C.O.G. (Lower): 2.5 [64]
- Height to C.O.G. (Lower): 0.0 [0]
- 4x LIFTING LUGS
- Height to C.O.G. (Lower): 6.5 [67]

Side View Dimensions:

- Overall Depth: 61.1 [1552]
- Height to C.O.G.: 25.3 [643]
- Height to C.O.G. (Lower): 15.5 [393]

Rear View Dimensions:

- Overall Depth: 59.0 [1499]
- Overall Width: 29.0 [737]

Tasman Sea Watermakers

8,000 - 18,000 GPD
30-68 M³/D

Features & Benefits

- Oil-free pump
- An Automated Screen Alerts the Operator of Required Maintenance
- All controls & instrumentation for safe and reliable operations
- Compact design
- Automatic control
- Built in cleaning system

Specifications

*Production may vary +/-20%. For other configuration please inquire with factory.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Rugged Design, Mid-Range Production, Quality Throughout

The dependable Tasman Sea series ideally suits the mid-range production requirements of reverse osmosis desalination. Small hotels, villas, oil platforms, mid-sized commercial vessels, and small cruise ships throughout the world rely on the dependability of Tasman Sea series.

The compact yet easily accessible design and maintainable configuration incorporate exclusive features found in no other desalinators. Tasman Sea frames are constructed from light-weight epoxy powder-coated aluminum.

Consumables/Spare Parts

Part Number	Description
33-5105	Filter, 20 Micron
33-5104	Filter, 5 Micron
0803005173	Element Charcoal
20-4096	Probe, Conductivity
2317100701	Transducer 300
2317102001	Transducer 0-2000
40012008	CIP Cleaning Element #1
40012009	CIP Cleaning Element #2
40012021	Preservation Chemical Element #3
21-1122	Silicone Grease, Slube 884-2
91-3557	Meter, TDS, PH, Handheld, Digital
33-6030*	Element, Sea Water
90-5160	Operation Manual, Paper Copy
90-5165	Operation Manual, Electronic Copy (No Charge)

*Membrane elements are sold separately.

Flange Kit Options

Part Number	Description
61012054	Flange Kit - T/S ANSI, PVC
61012055	Flange Kit - T/S DIN, PN16, PVC
61012056	Flange Kit - T/S JIS, 10K, PVC

Optional Accessories:

- pH neutralizer
- IMF media filter (Auto/Man)
- Chemical dosing system*
- UV Sterilizer*
- External strainer

*Requires Transformer Panel for RO System Control
Part No. 0901166 for 380V-410V RO Systems
Part No. 0901008 for 440V-480V RO Systems

Dimensions

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

North Sea Watermakers

27,700 – 52,800 GPD
105 – 200 M³/D

Features & Benefits

- Oil-free pump
- An Automated Screen Alerts the Operator of Required Maintenance
- All controls and instrumentation for safe and reliable operation
- Compact design
- Automatic control
- Built in cleaning system

*Technical water configuration available upon request.

*Production may vary +/-20%. For other configuration please inquire with factory.

*Membrane elements are sold separately.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

The Reliable Choice for Unlimited Fresh Water Production

The North Sea Series is the top choice of the offshore and commercial marine industry. It has the capacity to provide up to 200 metric tons of fresh water per day. With minimal space and maintenance requirements, the new North Sea has multiple controller configuration options, and provides maximum utility of space while incorporating ease of control and safety standards.

Optional Features:

- MODBUS communication
- Custom flanges

Optional Accessories:

- pH neutralizer
- IMF media filter (Auto/Man)
- Chemical dosing system*
- UV sterilizer*
- External strainer

*Requires Transformer Panel

Sea Recovery Atlantic Sea Series

Safe, Reliable, and Supported
Anywhere in the World

Features & Benefits

- Mega production - 1,200 metric tons and above per day
- Digital control with standard MODBUS
- Low-maintenance HP pump
- Energy Recovery
- One-touch start up with instant-on feature

Specifications

A700 Daily System Production	Production/Hour	Production/24 Hrs.
250 M ³ /day	2,752 gal	66,043 gal
300 M ³ /day	3,302 gal	79,252 gal
400 M ³ /day	4,403 gal	105,669 gal
500 M ³ /day	5,504 gal	132,086 gal
600 M ³ /day	6,604 gal	158,503 gal

1200 M ³ /day	13,209 gal	317,006 gal

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Efficiently Productive

The Atlantic Sea is Parker Sea Recovery's Largest series of standard Sea water Reverse Osmosis systems. Its features include a small footprint and fully-automatic controls with the capacity to 1,200 metric tons per day. The Atlantic Sea also boasts the lowest consumption of energy per ton

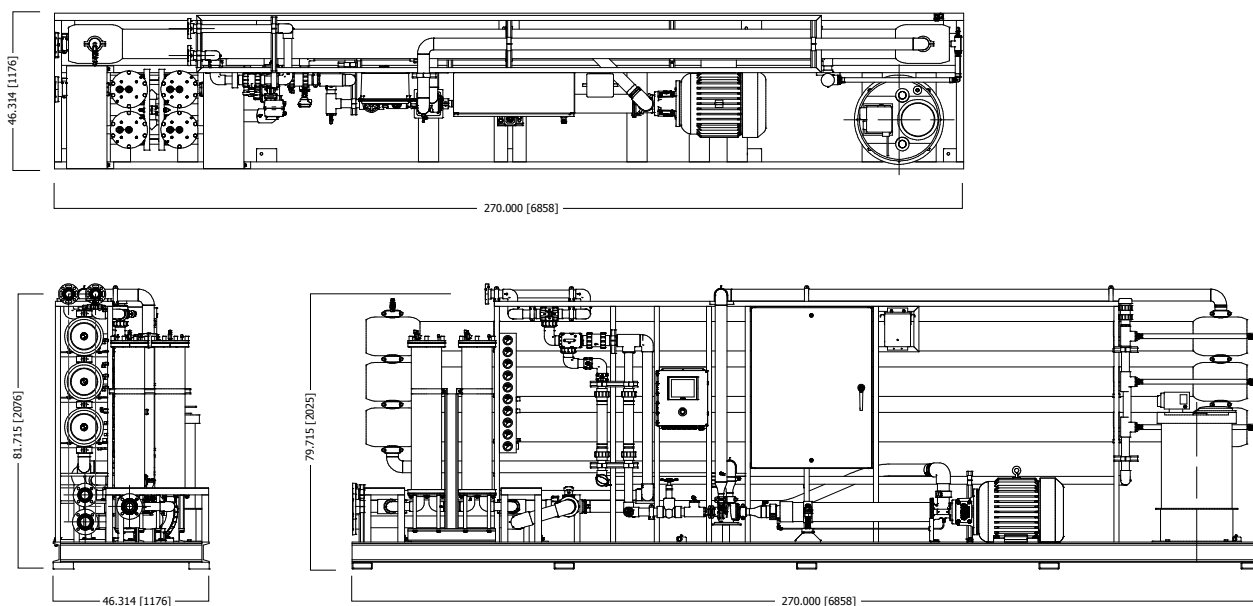

of water produced in the market. This is perfect for those who require an unlimited amount of fresh water anywhere at anytime.

From its fully-automated controller to its low-maintenance HP pump and its energy-recovery system, the Atlantic Sea effortlessly delivers high production capacities. Its automated controller is easy to operate and enables real-time remote monitoring of essential system functions.

The Atlantic Sea's high-pressure pump is the most compact and efficient pump on the market. Its flexible installation doesn't require frames, belt drives or gear boxes. The HP pump is corrosion-resistant and completely eliminates oil leaks and membrane fouling caused by oil leaks.

The Atlantic Sea is capable of instant-on start-up that allows the system to produce usable, fresh water within minutes.

Dimensions

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

LT Watermakers

3000 to 7000 GPD
(11 to 27 m³/day)

Features & Benefits

- Stainless steel high pressure pump is resistant to the corrosive seawater environment.
- Fiberglass cartridge filter housing holds 100 square foot 5 micron element.
- Marine bronze low pressure pp provides up to 50 psi of boost pressure to the filtration system.
- Glycerine filled pressure gauges.
- Flowmeters to monitor freshwater and reject rates.
- Freshwater flush system included standard.
- 316 stainless steel pressure regulator is adjustable to allow operation in brackish or fresh water.
- Electrical control panel Nema 4X with motor starter and pump controls.
- Automatic diversion valve diverts water to overboard if quality drops below acceptable standards.
- Digital water quality monitor displays purity of product water produced.

Specifications

Model	Part Number*	Power Volts/ phase/Hz/Amps	Dimensions** inch/cm	Capacity GPH-m ³ /Day	Weight

			height 62/157		

*Add part number 90-0264 to include optional media filter.

**Includes membrane rack mounted vertically. Does not include boost pump or optional media filter that increase width to 56/142.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Practical and Reliable Fresh Water Supply

The LT desalinator offers a simple watermaker package with a compact frame and small footprint. LT systems have a base frame only 40" wide x 33" deep, allowing a high capacity and high quality watermaker installation in a tight space.

Key Feature - Installation Flexibility

LT units can be supplied with an optional media filter system. Also membrane rack can be mounted horizontally or as a module for remote bulkhead mounting.

Spares and Consumables

WARNING - USER RESPONSIBILITY

FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

- This document and other information from Parker-Hannifin Corporation, its subsidiaries and authorized distributors provide product or system options for further investigation by users having technical expertise.
- The user, through its own analysis and testing, is solely responsible for making the final selection of the system and components and assuring that all performance, endurance, maintenance, safety and warning requirements of the application are met. The user must analyze all aspects of the application, follow applicable industry standards, and follow the information concerning the product in the current product catalog and in any other materials provided from Parker or its subsidiaries or authorized distributors.
- To the extent that Parker or its subsidiaries or authorized distributors provide component or system options based upon data or specifications provided by the user, the user is responsible for determining that such data and specifications are suitable and sufficient for all applications and reasonably foreseeable uses of the components or systems.

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Commercial Pure Water Series

PW 3000-18000 GPD
(11-68 m³/day)

Standard Features:

- Fiberglass pre-Filtration housings deliver 200 Sq. ft. of filtering area
- Stainless steel, glycerin-filled pressure gauges accurately read pressure at filters, pump and product
- Stainless steel 316L high pressure valve allows bypass for start-up and low pressure flushing without readjustment of regulating valve

For Commercial Marine Applications

The Pure Water Series (PW) reverse osmosis desalination systems are the preferred choice of reliable fresh water generating equipment for the most demanding marine operators (such as major oil companies, The United States Navy, The United States Coast Guard and The Cousteau Society). Thousands of PW installations have proven the performance and longevity under the most rugged conditions.

Key Features:

Titan Head Pump

At the core of each PW series watermaker is the Aqua Pro 3 or 5-plunger titanium high pressure pump.

PWM-16000

Modular configuration enables freedom to install components where space permits, and the modules are small enough to fit through hatchways for installation.

Standard Features (cont.):

- Automatic valve diverts water to discharge if water quality drops below acceptable standards
- Digital water quality monitor displays ppm of total dissolved solids of product water output. Also displays temperature and total hours for accurate service logs.
- Freshwater flush system extends life of membranes without use of preservatives
- Optional multi-media filter for operations in turbid seas
- Optional explosion-proof rating available

Spares and Consumable Parts

Part Number	Description
33-5100	Filter Element - 5 micron

Offshore Desalinators SW Series

SW-24, SW-32, SW-40
(91, 120, 151 m³/day)

Standard Features:

- Single drop skid with two complete watermaker trains including media filter with back wash and rinse
- Fiberglass pre-filtration housings deliver 200 sq. ft. of filtering area per train
- Nickel-aluminum-bronze low pressure pumps drive seawater through the filtration system
- All 316 stainless steel high pressure piping, with titanium fittings where appropriate. Low pressure piping is PVC80 or, optionally, GRE for extra strength
- Full instrumentation including liquid-filled pressure gauges, acrylic flowmeters, digital conductivity meter and hour-meter
- Valving to allow simple startup pressure control, flushing, or clean in place recirculation for membrane cleaning
- Automatic diversion valves direct product water to discharge if water quality drops below acceptable standards

Specifications

Model	Part Number	Product Flow*		Power at 440/3/60	Skid Size	Operating Weight
		GPD	m ³ /day			
SW 24	90-8558	24000	91	60 Amps	142" long	6950 lbs
SW 32	90-8556	32000	120	60 Amps	72" deep	7300 lbs
SW 40	90-8608	40000	151	170 Amps	78" high	7500 lbs

*Product flow based on median seawater conditions, both trains running.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

For Offshore Rigs and Work-Camps Applications

The SW Series RO desalination systems are designed for rugged use in harsh environments that demand large quantity of potable water duty. Typical installations are offshore rigs, work camps, oceanfront resorts, or cruise ships.

Each SW unit comprises a single skid installation with two complete, independent RO systems. The two trains can run simultaneously or can be operated on a duty/ stand-by basis.

Key Feature:

Aqua Pro® Pump-5P50

At the core of each SW series watermaker is the Aqua Pro® 5 plunger high pressure pump:

- Titanium head for maximum corrosion resistance.
- Five plunger design allows lower rpm, lower noise and less vibration.
- Ceramic plungers and nylon valves will not corrode.

SW Series (back side view)

SW Series (right side view)

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Bilgewater Adsorbent Separator

BAS-500, BAS-1000,
BAS-2000, and BAS-2500

Features & Benefits:

- USCG Certified to meet IMO MEPC 107(49) regulations
- MEPC 107(49) certified oil content monitor included
- Advanced three-stage design for maximum oil separation
- Automated oil flush system
- Compact design minimizes installation requirement
- Certified compliant with European Union Marine Directive 2014/90/EU item MED. 1/2.1
- Built in Push-to-Start (Priming) for quick operation

Specifications

*Water production capacity may be slightly less than rated for all 50 Hz units.

WARNING: This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Bilge Water Treatment

Parker Village Marine Tec. oily water separators meet the Village Marine Tec. IMO Resolution MEPC 107(49). The Village Marine Tec. units are an advanced three-stage system optimizing the separation and removal of free and emulsified oils.

Heavy duty construction, corrosion resistant materials, permanent oil attractant media, quiet operation, automatic diversion valves and advanced oil adsorbent media technology result in an easy to use, high quality, affordable solution to meet your bilge water treatment needs.

General Specifications:

- Inlet Connection:
3/4" FNPT on models
BAS-500 - BAS-1000
1-1/4" FNPT on models
BAS-2000 and BAS-2500
- Oil Discharge:
3/4" FNPT on all models
- Clean Water Flush Inlet:
3/4" FNPT on all models
maximum water pressure 20 psi
- Treated Water Outlet:
3/4" FNPT on all models

Spares and Consumable Parts

Part Number	Description
33-0057	Process filter 5 micron all models
90-5026	Coalescer Media Fill Kit (model BAS-500)
90-5028	Coalescer Media Fill Kit (model BAS-1000)
90-5029	Coalescer Media Fill Kit (models BAS-2000 & BAS-2500)
33-0082	Process filter housing cover seal O-ring
20-0029	Switch, 3-pos
20-0028	Switch, 2-pos
20-3004	Light, Indicator, Green
20-3006	Light, Indicator, Red

Part Number	Description
20-0505	Light, Incandescent (110)
20-0296	Relay level control 110 VAC/50-60
90-5030 Kit,	Adsorptive media replacement (BAS-500 - BAS-1000)
90-5031 Kit,	Adsorptive media replacement (BAS-2000 - BAS-2500)
30-1164	O-ring, Riser tube, Media filter
30-0935	O-ring, Distributor head, Media filter
70-0392	Feed pump seal kit
90012515	Push Button, Momen Tary, Red
0101018	Media Filter With Stand, BAS 500

WARNING - USER RESPONSIBILITY

FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

- This document and other information from Parker-Hannifin Corporation, its subsidiaries and authorized distributors provide product or system options for further investigation by users having technical expertise.
- The user, through its own analysis and testing, is solely responsible for making the final selection of the system and components and assuring that all performance, endurance, maintenance, safety and warning requirements of the application are met. The user must analyze all aspects of the application, follow applicable industry standards, and follow the information concerning the product in the current product catalog and in any other materials provided from Parker or its subsidiaries or authorized distributors.
- To the extent that Parker or its subsidiaries or authorized distributors provide component or system options based upon data or specifications provided by the user, the user is responsible for determining that such data and specifications are suitable and sufficient for all applications and reasonably foreseeable uses of the components or systems.

To maintain peak performance, always use genuine Parker Village Marine replacement parts. We reserve the right to change our specifications or standards without notice.

 **WARNING:** This product can expose you to chemicals including Di(2-ethylhexyl) phthalate (DEHP), which is known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
