WILSON
Solutions in Motion

COMPANY OVERVIEW

Wilson is a leading provider of Hydraulic and Pneumatic Components, Hydraulic Power Units and Custom Hydraulic Solutions and Systems. Since 1965, we have combined motion control technologies of the highest quality and value with innovation to deliver solutions in motion.

CORE COMPETENCIES

- Parker Hannifin recognized Technology Center for hydraulics, pneumatics and connectors
- Advanced 3D modeling, fabrication, hose assemblies and system testing
- Access to the largest selection of high-quality motion control products in the industry

PAST PERFORMANCE

NOTE 1

Wilson Dynamic Solutions designed, fabricated and delivered hydrostatic pressure testing units for the leading reusable payload rocket manufacture. These units are automated and interface with the manufacturing data base. The unit monitors pump inlet pressure and warns for plugged inlet filter. Excessive leak warnings are produced with large following errors. Should the actual pressure fall too far behind the target the operator is notified and the test is terminated.

NOTE 2

Wilson Dynamic Solutions built, designed and tested precision testing equipment for the nation's leading landing gear manufacture. The fully integrated HMI provides a wide range of testing parameter and data displayed. This insures full functionality of the aircraft landing gear prior to installation on the aircraft.

423830:	**Industrial Machinery and Equipment Merchant Wholesalers**
423840:	Industrial Supplies Merchant Wholesalers
333996:	Fluid Power Pump and Motor Manufacturing
333914:	Measuring, Dispensing, and Other Pumping Equipment Manufacturing
333912:	Air and Gas Compressor Manufacturing
333998:	All Other Miscellaneous General Purpose Machinery Manufacturing
811310:	Commercial and Industrial Machinery and Equip. (except Auto and Electronic) Repair and Maint.
334519:	Other Measuring and Controlling Device Manufacturing
332912:	Fluid Power Valve and Hose Fitting Manufacturing
238290:	Other Building Equipment Contractors
